UnCHAINED  
LABS

## Particular-ly excellent life sciences tools from UnCHAINED LABS

Join us for a technology and applications focused seminar covering protein therapeutics and lipid nanoparticles (LNPs) in the  
**Crowne Plaza Hotel Blanchardstown, 22<sup>nd</sup> April 2026**

### AM Session:

#### Protein therapeutics

**UV/Vis and Light scattering**  
fundamentals and data  
interpretations

#### Data to Decisions:

Interpreting absorbance and  
light scattering data for  
concentration, stability, and  
formulation evaluation on  
peptides, antibodies and ADC

### PM Session:

#### LNP Focus

**Key elements and recent trends**  
in LNP design, production and  
characterisation.

LNP production work flow from  
**R&D to GMP with Sunny Suite**  
and **High throughput LNP**  
**characterisation** with Stunner AF

Full agenda to follow, for more details contact [ciaranm@particular.ie](mailto:ciaranm@particular.ie)
