Particular Sciences Ltd is seeking an enthusiastic Sales Engineer to promote and support Nikon Metrology and complementary vision technologies (such as Biolin Scientific, Malvern Panalytical and Sopat).

The successful candidate will sell to clients in industry and academia through rich technical discussions and demonstrations, assessing new applications and tailoring solutions to suit needs - providing local support beyond installing and delivering training.

The ideal candidate should:

- hold a degree in engineering or similar, and some experience in industry;
- have experience working with metrology and optical systems;
- be hands-on and capable of basic field service;
- be honest and a clear communicator;
- want to work in a dynamic environment and help the team;
- have experience in selling capital equipment;
- have strong IT skills, and comfort with Microsoft Office 365 and using a CRM;
- be comfortable with image analysis software and some automation;
- hold a full, clean driving license valid in Ireland & Northern Ireland.

The job entails travel throughout Ireland and Northern Ireland, so overnight stays in hotels will be required. A company car, laptop, phone, and company credit card will be provided.

Our main premises (laboratories, service workshop and stores) are at Birch House, Rosemount Business Park, Ballycoolin, Dublin 11, and we have additional sales offices in nearby Blanchardstown Corporate Park.

If this job interests you, then please email your CV to info@particular.ie marking it for the attention of Donnchadha Quilty.
